

PC CD-ROM - Anime Release Checklist

A complete list of all 24 anime title releases and their 49 volumes and editions, with available publisher catalog numbers. Most titles released on this format were published by Software Sculptors, which handled all but one of CPM's CD-ROM releases. Software Sculptors CD-ROM titles have a "SSLM" catalog code. As there were not many releases overall to this format, all CD-ROM anime releases are presented here together on a single page. CD-ROM Video releases utilized Apple QuickTime codecs for playback compatibility in both Windows and Macintosh OS environments.

Adventure Kid - <input type="checkbox"/> Volume 1 (SSLM-3011) - <input type="checkbox"/> Volume 2 (SSLM-3012)	Lady Blue - <input type="checkbox"/> Volume 1 (SSLM-3049) - <input type="checkbox"/> Volume 2 (SSLM-3050)

Sirius MovieCD - Anime Release Checklist

A complete list of all 8 anime title releases and their 17 volumes and editions, with Sirius catalog numbers when available. MovieCD was an attempt by Sirius at introducing a unified computer video codec publishing standard made specifically for the Windows OS segment of the PC market. Unlike generic CD-ROM video releases, MovieCD used a proprietary codec that could only be played by using the player program software included on MovieCD discs or downloaded from the MovieCD website. Titles from both Central Park Media (CPM) and Manga Entertainment were released in the format.

Cyber City Oedo 808 - <input type="checkbox"/> Data One (4055)	New Dominion Tank Police - <input type="checkbox"/> Volume 1 (?) - <input type="checkbox"/> Volume 2 (?) - <input type="checkbox"/> Volume 3 (?)
